JORDAN LEE

Toronto, ON | jordan.lee.data@example.com | +1 416 555 0187 | linkedin.com/in/jordan-lee-data-example

PROFESSIONAL SUMMARY

Results-driven data professional with 6+ years of experience leveraging data to drive business decisions. Passionate about turning complex datasets into actionable insights for cross-functional stakeholders.

EXPERIENCE

Clearwater Payroll, Toronto, ON

Product Data Analyst | Mar 2022 – Present

- Responsible for building and maintaining Tableau dashboards for the product team.
- Built a churn model in Python (pandas, scikit-learn) that flags small-business accounts likely to cancel in the next 60 days; customer success now calls the top 200 accounts each month.
- Analysed retention for the time-tracking add-on and found that accounts which connected their scheduling tool in week one retained 18 points better at 90 days. The onboarding flow was changed to prompt that step.
- Wrote and scheduled SQL transformations in Snowflake with Airflow, replacing spreadsheets the finance team updated by hand.
- Worked with product managers to define event tracking (Segment) for new features before launch.
- Presented the quarterly retention review to the VP of Product.

Maple Ridge Credit Union, Toronto, ON

Business Intelligence Analyst | Jun 2019 – Feb 2022

- Helped with monthly reporting for the lending team using SQL Server and Excel.
- Automated the weekly loan-pipeline report with SQL and Power BI, cutting preparation time from about six hours to under one.
- Assisted in a data quality project for member records.

EDUCATION

University of Waterloo, B.Sc. Statistics, 2015 – 2019
